

MANUAL

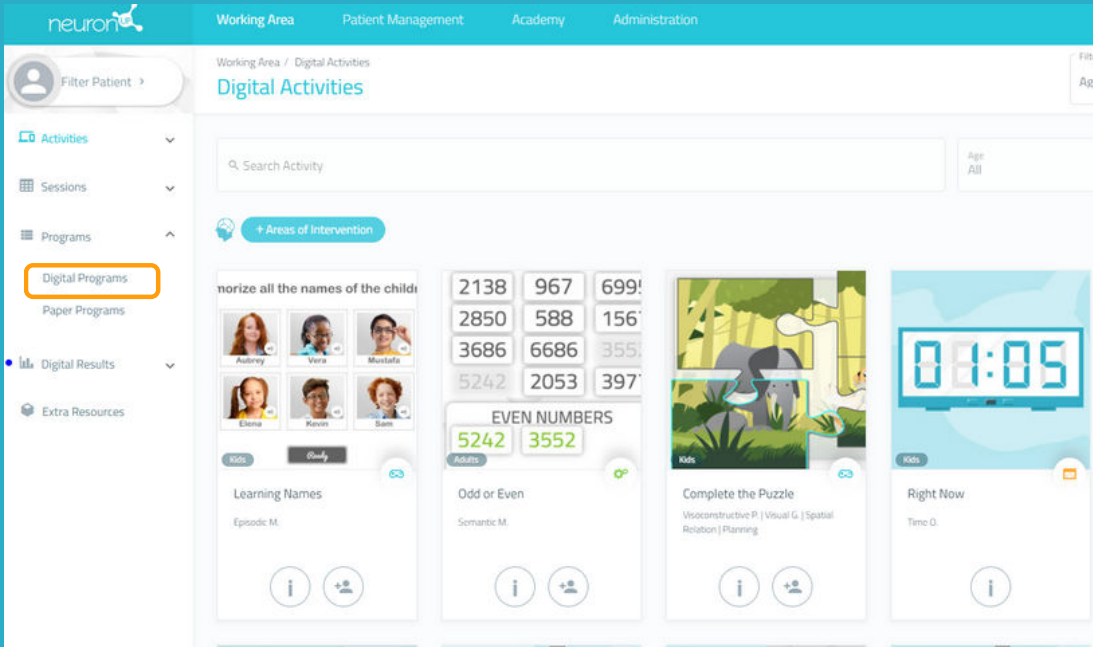

WORKING WITH PROGRAMS

A program is a set of sessions.

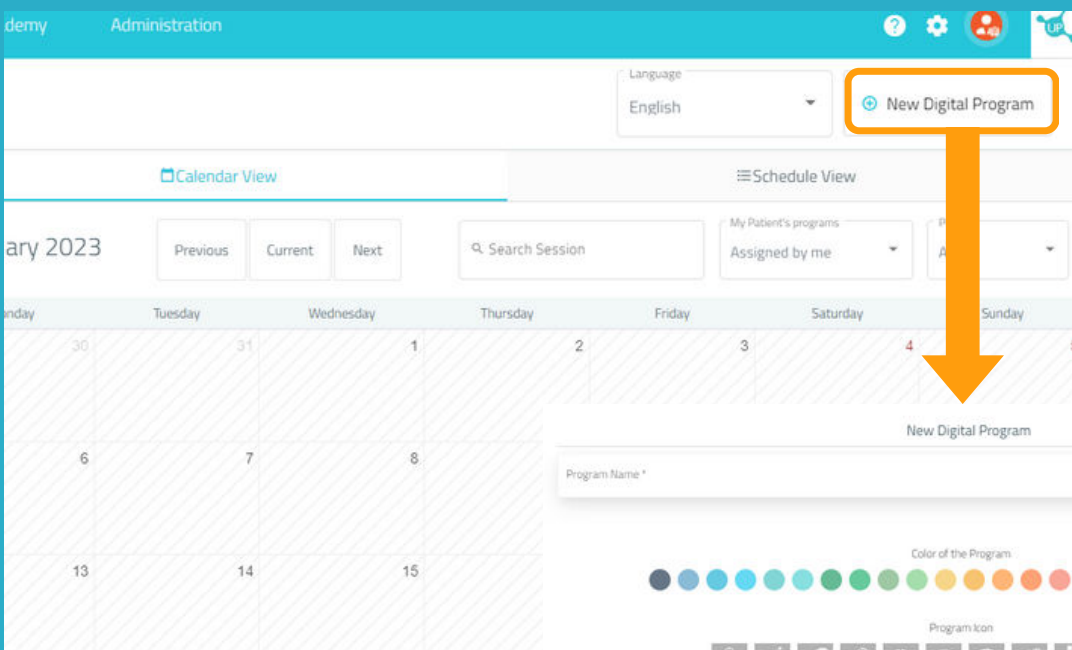

Creating programs allows you to plan your work for several months in a few minutes. Let's find out how below.

1. Click on "Digital Programs"

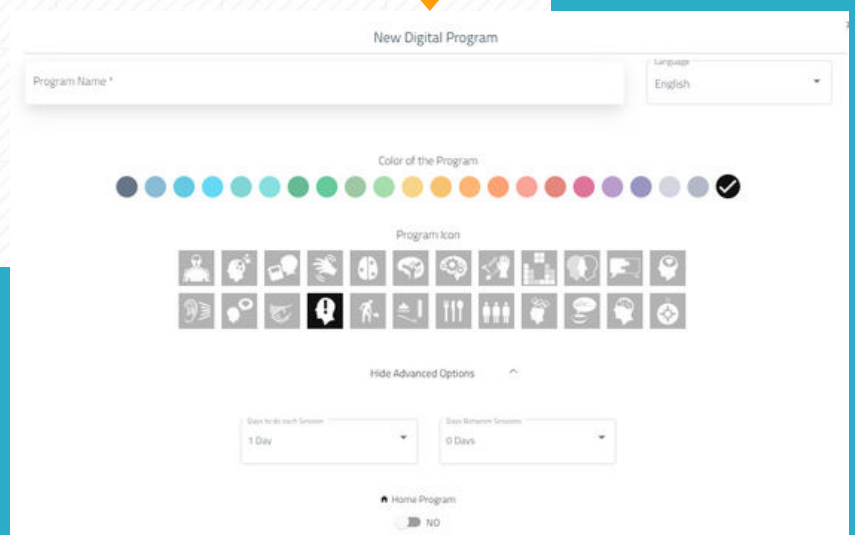

To get started, click on "Programs" and then on "Digital Programs" on the left side of your screen.

2. Click on "New Digital Program"

Once you have clicked on "New Digital Program", the following window will be displayed.

3. Fill in the basic program information

Program Name *

Language
English

Color of the Program

Program Icon

Hide Advanced Options

Days to do each Session
1 Day

Days Between Sessions
0 Days

Home Program

Description

Patient Evaluation YES

Confirm the End of Activity YES

Continue Button YES

Create

1. Name your program.
2. Choose an icon and a color.

Optional:

- Click on "Advanced Options".
- Define the number of days your patient will have to do each session and the number of days of rest between each session.
- Add tags. It will help you find your program more easily.
- Add a description.
- Enable or disable advanced actions.

3. Click on "Create".

4. Add the sessions

Working Area / Digital Programs / Edit Program 'Memory-Medium level'

Edit Program 'Memory-Medium level'

Memory-Medium level
Created by: Jacob Baker
Memory
With Patient Evaluation, Yes Confirm the End of Activity, With Continue Button
3 Days of Duration for each Session, (num) Day of Distance Between Sessions

Search Session

Interval: Last Month

Sessions: Created by me

| Session | Professional | Actions |
|---|--------------|-------------------------|
| Alternating and sustained attention - Janelle | Jacob Baker | View Edit Duplicate Add |

No. of Sessions: 1 / 1

Program Content

No. of Sessions: 1

Alternating and sustained attention - Janelle
20min

Search Session

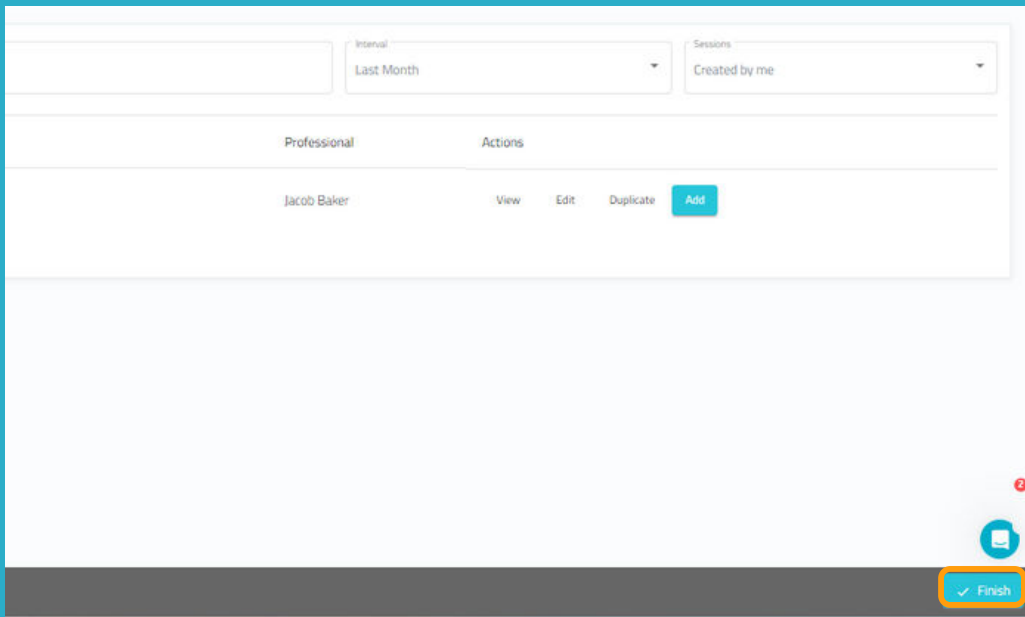

Session

Alternating and sustained attention - Janelle

No. of Sessions: 1 / 1

The program base is already created. Now you have to add the sessions you wish.

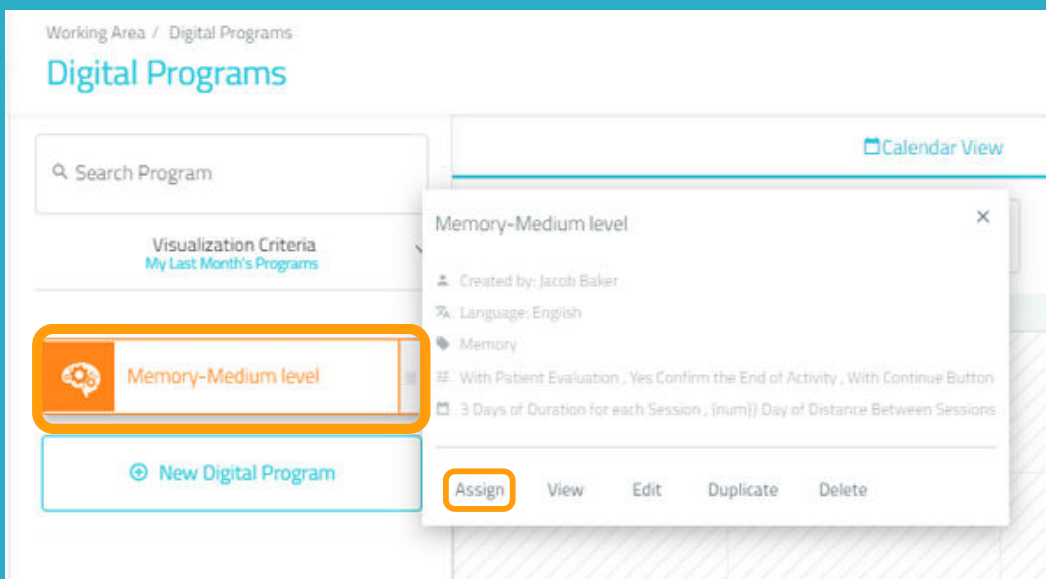

5. Save the program

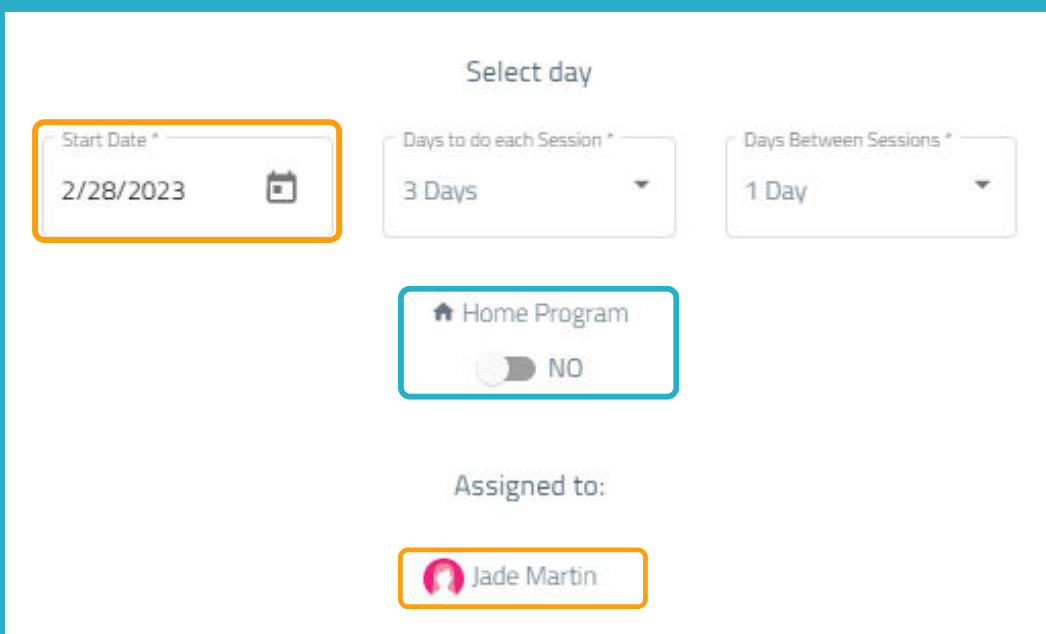

Once you have set up the program, click on "Finish" at the bottom right to save it.

You can modify it later if necessary.

6. Assign the program

Click on the program and choose "Assign" or drag it to the desired date to assign it.

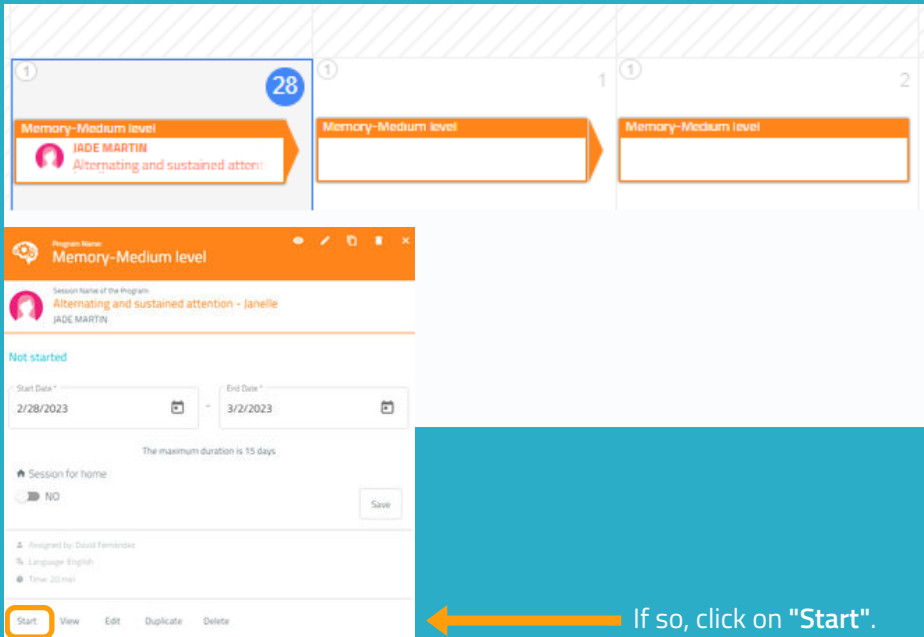

Select one or more patients to assign the program to.

*See Manual for working with several patients simultaneously.

Enable the home session filter if you want your patient to work remotely*.

*See *NeuronUP2GO Manual*.

7. Start the program

To start a program it must be **assigned to a patient** and be within the date range we are in, as in the example.

If so, click on "Start".

8. Follow the program progress

Once the program has started, you can follow its progress thanks to the display of an indicator.

Calendar View / Schedule View

You can view and organize your programs in calendar view (left) or schedule view (right).
